Some friendly ground rules designed to make our study edifying, encouraging, helpful to all, and most importantly—glorifying to our Lord and Savior Jesus Christ!

1. We welcome and encourage every woman to share! However, you are not required to share in order to be part of our study. For those of use who love sharing, let's work at being keenly aware that we also need to be good listeners, leaving time for every woman to be involved in this process.
2. Our groups are confidential and we appreciate your helping us keep them a "soft landing place."
3. As group leaders, we are asking for your forgiveness in advance — there may be times that we have to interrupt in order to move the group along. Please don't feel slighted. Our intention is never to embarrass; rather to make the groups a safe and open place for all women.
